## Interview Prep Document

Use the following sections to plan your interview performances

### **Background on the hiring organization:**

*What is their core business? Why do you think they're hiring for this post? Has this company been in any news articles you can find? Other blogs? Employee reviews?*

### **Which of my past work & projects are most relevant?**

*Generate a story (person, place, time, actions) for each of these. Bring documentation if possible (screen shots, summaries of achievements...)*

### **My three "greatest strengths":**

*Consider strengths that the hiring organization might care about the most.*

- 
- 
- 

### **Your core offering to the company:**

*Write a sentence or two summarizing why you think you should be hired.*

### **My three "weaknesses":**

*Keep the weaknesses small! Stay away from core competencies (working hard, being on time, communicating clearly). Tell stories about how you compensated for each of your weaknesses*

- 
- 
- 

### **Questions for the hiring organization:**

*Bring concrete questions (when does the post start?) and more open-ended ones about the organization's mission, values, operations, etc.*
