Showing examples on how to do something then making us do something similar but not the exact same so we can learn from it

2. Your perceptions of the weaknesses of this course. What particular teaching methods or assignments were not helpful to you in learning? Why not?

Some of the notes don't seem very helpful
I like the visual activities that he makes us do.

3. Your opinion of the overall effectiveness of this course. What suggestions, if any, do you have for helping the instructor to improve the teaching methods and assignments in this course?

The instructor seems to know a lot about the subject which helps explain what we need to do.

1. Your perceptions of the strengths of this course. What particular teaching methods or assignments helped you to learn the content or the skills required in this course?

The variety of activities we perform lends itself very well to the material. I enjoy learning in ways that are not straight lecture, which is how most colleges courses are taught. The class is called intro to technology, so I appreciate that we are using all kinds of technology to reinforce concepts.

2. Your perceptions of the weaknesses of this course. What particular teaching methods or assignments were not helpful to you in learning? Why not?

Quite a bit of the material is something that I have already studied/used extensively, so there are times when I don't feel challenged.

3. Your opinion of the overall effectiveness of this course. What suggestions, if any, do you have for helping the instructor to improve the teaching methods and assignments in this course?

The best recommendation I would have would ~~to have~~ be to have more defined, tested lesson plans.

I think the learning modules are really great.

2. Your perceptions of the weaknesses of this course. What particular teaching methods or assignments were not helpful to you in learning? Why not?

I did not find acting out or the rain fall example helpful - I found it was a step back from where we were in our learning. *

3. **Your opinion of the overall effectiveness of this course.** What suggestions, if any, do you have for helping the instructor to improve the teaching methods and assignments in this course?

I think more definitions and organization of what java is before jumping in would help. Maybe a quiz or test on definitions would have helped.
